Knowledge Organiser

People aim for things to become ***safer***. This means that there is more protection and also less risk of harm or danger.

When there is less pollution caused, the air becomes ***cleaner.*** This means that less harmful substances are made.

If something is ***efficient***, it means it has the ability to do or produce something without waste.

Sequence is when events, items or other related things follow each other in a particular order.

A ***device*** is anything that is made for a particular purpose. Often these are mechanical or electrical.

An ***innovation*** is a new idea, method or product which introduces something new often to solve a problem.
