WRITING SKILLS & DIGITAL PHOTOGRAPHER SPECIALIST

United States based non-profit organization is seeking a local person with excellent English writing skills who can write a set of newsletters about the work it is doing in Matamba Tanzania. This individual will start by traveling to Matamba Tanzania to interview and take digital photographs of students, teachers, local families, farmers, and business owners. Then take this information learned through these interviews and write six newsletters between 2-4 pages long, including photos, based on these stories. These newsletters will then need to be printed and mailed from Tanzania every two months over a 12-month period to 350 individuals located in the U.S.

We expect that this work will require about four to eight weeks to write the newsletters, label the envelopes with the addresses, and stuff the newsletters into the envelopes to prepare them for mailing at the designated time (every two months).

We will pay \$1,000.00 for this work as an independent contractor, (plus the cost of transportation, lodging in Matamba, postage, paper, envelopes, printing, etc.) and are willing to negotiate a higher fee for the right person with demonstrated English writing skills.

***If you are interested, please email a cover letter and resume to: Michael Vallez, Chairman, Global Faith Partners: mvallez@globalfaithpartners.org
