

THE END OF RUST

Corrosion Protection

Stainless Steel Spray

- chemical-resistant, corrosion- and weather-resistant surface coating
- based on acrylic resin and stainless steel pigments
- colour: metallic stainless steel, matt

► 400 ml
11100400

Zinc Spray

- provides all metal surfaces with a high-grade, cathodic corrosion protection
- fast-drying, adherent, durable protective layer
- colour: slightly weathered hot-dip galvanized metal

► 400 ml
11000400

Stainless Steel Spray bright grade

- chemical-resistant, corrosion- and weather-resistant surface coating
- gives surfaces a treated stainless steel look
- colour: metallic stainless steel, light

► 400 ml
11104400

Zinc Spray bright grade

- long-term cathodic corrosion protection even against extreme weather and environmental conditions
- high-grade anti-rust primer
- colour: matching fresh hot-dip galvanized metal

► 400 ml
11001400

Brass Spray

- pure, high-grade and effective metal coating
- suitable for the protection and visual upgrading of different materials
- colour: metallic brass, matt

► 400 ml
11102400

Copper Spray

- high-quality, weather-resistant and strongly adherent metal spray
- for protective and decorative coatings
- colour: metallic copper, matt

► 400 ml
11101400

Brushable Liquid Zinc Paint

- ideal long-term corrosion protection for all metal surfaces
- high zinc content
- colour: zinc-grey, matt

► 375 ml 15000375
► 750 ml 15000750
► 2.5 L 15000902

Brushable Liquid Zinc Coating

- durable corrosion protection for metallic surfaces
- colour: matching fresh hot-dip galvanized metal

► 375 ml 15001375
► 750 ml 15001750
► 2.5 L 15001902

Aluminium Paint

- effective corrosion protection for all metal surfaces
- protects against abrasion and chemical substances
- colour: aluminium, metallic gloss

► 375 ml 15002375
► 750 ml 15002750

Copper Paste

- protecting, release and lubricating agent for highly stressed parts
- suitable for high temperatures
- protects against corrosion and fretting corrosion
- colour: copper

► 120 g 26200012
Pinsehdose

Corro-Protection

- maintains tools and precision parts made of metal by providing a dry and waxy layer
- effective corrosion protection for unpainted metals, indoor storage and overseas shipping
- colour: milky

► 400 ml
11550400

Rust Protection 2000 PLUS

- weather-resistant and long-term corrosion protection
- surface coating with visual effect
- colour: silver-grey (DB 701), anthracite (DB 703)

► 400 ml 11012400 anthrazit
► 400 ml 11013400 silbergrau

Aluminium-Spray A-100

- protects against rust and corrosion
- abrasion-resistant and resistant to many diluted acids and lyes as well as to weather effects
- colour: metallic aluminium, matt

► 400 ml
11050400

Zinc-Alu Spray

- provides long-term protection against rust and corrosion
- forms a fast-drying, strongly adherent protective layer and is resistant to many chemicals
- colour: matching hot-dip galvanized metal

► 400 ml
11002400

Rust Treatment

Rust Converter

- rust converter and base coat in one go
- effective neutralization of rust
- colour: beige, transparent

► 400 ml 11155400
► 1kg 15152001

Rust Shock

- chemical wrench
- loosens all kinds of threaded joints within seconds
- cold shrink effect, capillary action and oil lubrication
- colour: transparent

► 400 ml
11151400

W44T Multi-Spray

- corrosion protection, water repellency, lubrication, conservation and cleaning all in one product
- dissolves rust and helps to loosen seized components
- eliminates squeaky and creaking noises
- colour: yellowish

► 400 ml 11251400
► 500 ml 11251550

Rust Loosener Fluid

- penetrating oil for sensitive materials
- loosens seized up and oxidized threaded joints, provides long-term protection against corrosion and oxidation
- NSF-H1 approval for the food area (registration 152621)
- colour: beige

► 400 ml
11154400
